Welcome to the second reference of **Cicuta Netlabel**. While the first reference was composed of various artists, this time presenting the second model of EP that will go work, focused on a particular artist and with various *remixers*. We wanted to be us, the people of **Drugstore**, which give the starting for this format, featuring three original cuts plus three remixes of three friends and colleagues.

The three original cuts are in tune to the music we have always intended to netaudio, with less commercial sound than the first release. We started with an intro EP (*The Birth*), the first published, to usher in two cuts: one with more underground sounds (*Night Dream*), and another tracker (*Shadai*). Too much variety, as you can see...

As for the *remixers*, first we present to **Hermético**, catalan dj and producer and one of the people most knowledgeable and respected in the netaudio world, thanks to his work as manager of *Inoquo* netlabel, as well as her work through his blog *Oir Para Creer*. We worked together on various projects over the years, and we can assure that their quality productions go beyond the four sides.

Moreover we have the hungarian **Gabeen**, another classic of netaudio circuit, which in recent times are getting great achievements in the commercial world, appearing on labels like *Naked Lunch* or *Armatura*. His productions always noted for its strength and breadth of sound, a perfect complement.

Last but not least, we introduced you to **David Reina**, producer from Córdoba (Spain) who is within the group of young talents which aims to support from Cicuta, providing a remix with a great personality.

Relax, listen and enjoy. Welcome, this is Cicuta Netlabel.
