Welcome to the release number 30 of **Cicuta Netlabel**. They are passing references and we increase our family. With more than 80 artists who have joined our cause, some better known than others. In any case, we're equally proud of each of them, every time they have a success we live it as our success. So, we want to thank you again, month after month, reference to reference, you still consolidating this project, we hope to have very far end...

In this release we present an old friend, the British artist **Hoth System**. Delivered almost 100% to free music (in fact his Soundcloud profile almost all tracks available for free download), it has gone through some netlabels friends, as *Kidnapping Netlabel* or *District Facility*. His style is quite varied and difficult to snap on a particular sound, but almost everything he does worth listening. A value to follow...

As for the remixers, first introduced in Cicuta to **Stingrays** from Singapore, that brings his heavy and dark techno. He is a very prolific artist in recent times, we can find his tracks in very interesting labels like *Gynoid*, *Induxtriall Records*, *We Call It Hard* or *Kidnapping* in the netlabel world.

On the other hand, we have the pleasure of welcoming to Cicuta to a friend, which we had long wanted to have on our roster. He is the Madrid based artist **Razeed**, manager of *Geometrika FM* project, with years of experience in the nightlife and the techno scene and a true musical scholar. He bring us a very mental remix, as he is.

Relax, listen and enjoy. Welcome, this is **Cicuta Netlabel**.
